

Eternygen GmbH press release
Berlin, 12 September 2017

Eternygen GmbH is part of the Network for Pharma Solutions (NetPhaSol, Germany)

We proudly announce the start of „Network for Pharma Solutions – NetPhaSol“. This cooperation network for drug development serves as a platform for research, development and marketing of new products, processes and services. The primary focus are the first value chain stages of a drug development cycle - however, further development stages are not excluded. Eternygen GmbH is now broadening NetPhaSol’s profile with its expertise in drug development. The initiative will present its portfolio at the drug development meeting „Treffpunkt Wirkstoffentwicklung“ on the 16th October in Berlin. More information can be found here:
